

CSERC VOLUNTEER PROJECTS 2024 REPORT

In 2024, CSERC volunteers completed 10 volunteer restoration workdays with 55 participants and more than 450 hours of labor donated.

What did our dedicated and hard-working volunteers accomplish this year?

- Meadow, wetland, and fen habitat were protected from livestock impacts through enclosure fence building and repairs.
- Thousands of invasive plants were removed from sensitive habitats.
- Hundreds of native plants were planted in meadow and wetland habitat.
- Hundreds of acorns were planted in areas effected by wildfire.
- A degraded interpretive trail was rehabilitated and brought back to life.

Date	Project	Volunteer Hrs	# of Volunteers	Objective/Results
6/27/2024	Montgomery Meadow	10	2	Weed reduction in and around meadow
7/18/2024	Ackerson Meadow Yosemite National Park	140	14	Native vegetation planting and targeted seed collection
8/12/2024	Ackerson Meadow Yosemite National Park	180	18	Targeted seed collection
8/22/2024	Trail of the Ancient Dwarfs	42	7	Rehabilitated historic interpretive trail
8/24/2024	Quail Meadow	3	1	Weed reduction within meadow
9/4/2024	Fiddler's Green Meadow	5	1	Exclosure fence repaired
9/13/2024	Fiddler's Green Meadow	3	1	Exclosure fence repaired (cont'd)
9/17/2024	Quail Meadow	32	4	Exclosure fence repair and weed removal

10/7/2024	Quail Meadow	30	5	Exclosure fence repair and weed removal (cont'd)
10/27/2024	Quail Meadow	8	2	Weed removal (cont'd)
		453: Total volunteer hours served	55: Total # of participants	

CSERC is grateful to have received a generous grant from the **SCHWEMM FAMILY FOUNDATION** which made the restoration workdays at Quail Meadow possible.
